TUFFY®

Redefining the world of pet toys one dog at a time.

ALL TOYS ARE NOT CREATED EQUAL

...that is why we created the "TUFF SCALE™". The TUFF SCALE™ is designed to give you insight on how tuff the toy you're buying compares against another. Some dogs are aggressive and can only have the tuffest toys ranked 8 and above. Other dogs may not be as aggressive or may be older and their chewing habits have slowed. If this sounds like your dog, you can consider toys ranked 5 and above.

OUR GOAL:

Our goal is to help you purchase a toy suited for your dog's needs. All of our Tuffy® and Mighty® toys are made with the same extreme durable construction, but the shape of the toy can impact a dog's ability to penetrate the toy over time.

Use the TUFF SCALE™ to help you with your purchase. If you aren't 100% sure which toy is right for your dog call us at 1-866-4-DogToy.

We strive to make our toys the TUFFest on the market. We are continually testing and creating new toys to be both stronger and safer for your dog. As loving dog owners we only want the best toys for our dogs and yours. Indestructible is impossible... *But we will keep trying!!*

Look for our TUFF SCALE™ logos while you shop to identify the most appropriate toy for your dog.

HOW ARE THEY MADE?

7

SEVEN ROWS OF STITCHING

Tuffy® toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the materials edge, and the toys' parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

4

FOUR LAYERS OF MATERIAL

Tuffy® toys can have up to 4 layers of material depending on the shape, size and style of the toy. Our Ultimate series (depicted here) can have up to 2 layers of Luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

Disclaimer: Each toy shape and size is made differently, and because the toys are made by skilled human hands, no two toys are identical.

PROTECTIVE WEBBING

For our Ultimate series we add an additional layer of webbing, whenever possible, around the outside edge to cover the seams of the toy. This is sewn multiple times, for added durability.

SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.

Machine Washable

Our durable zippered soft fleece sheets are machine washable and dryable (on Low). And since you can buy more than one set of sheets you can wash them at your convenience!

Keeping your dogs sheets fresh and clean is important, so be sure to wash your dog's bed sheets each week when you change the sheets on your own bed.

Removable & Replaceable

Our removable sheets are also replaceable so if they ever tear or become worn they can be replaced like bed sheets without having to purchase a brand new bed. Mix and match colors to customize your dog's bed to your home. Each part of our bed including the durable covers and stuffing can be replaced, saving you money and giving your dog a familiar bed for life.

Two Piece Design

Our unique two piece design (pillow mat and bolster) makes our bed versatile and portable for travel. The removable bottom cushion can be used as a travel mat or crate mat to promote the familiarity of home in a not-so-familiar place like the boarding kennel or a camping trip.

Saving Money

Replaceable parts save you money. Now you can replace the worn part and not the entire bed. By not having to repeatedly purchase new beds for your pet, you can spend the savings elsewhere. Your dog will thank you because they will never have the hassle of having to learn to like their new bed and getting it to smell like something that belongs to them. Just replace the parts you need.

Want the water without the whole pack? Detach the Water Bladder and strap it around your waist for easy travel! The water bladder is set inside a larger pouch which also zips away from the Pack 'n Go for easy refill. The hose and easy-pour spout fit snugly onto the shoulder strap and can be removed easily for Fido's quick drink.

MIGHTY®

Dog Toys

Mighty® Dog Toys **rethink durability** and approach it from a new angle.

Durability is created for each toy with multiple layers of flexible materials that move with the dog's teeth instead of tearing. Compared to other toys, Mighty® dog toys have no hard edges. The result is that these toys do not promote chewing – great when you're trying to discourage chewing habits.

These toys may seem plush on the outside, but all the durability features are internal making these toys soft, yet MIGHTY® strong.

HIGH DURABILITY AND QUALITY

Each toy incorporates quality materials that provide the highest level of durability.

MULTIPLE ROWS OF STITCHING

Vulnerable areas are covered and sewn with a material binding that covers the original sewn edge. This extra binding creates multiple rows of stitching to hold the seams together.

DURABLE SEAMS

All seams are located inside the toy to discourage chewing. Vulnerable seams are protected by sewing a flexible material over the edge of the seam.

2 LAYERS OF MATERIAL

Each toy has a plush outer material with a layer of heavy fleece underneath. The fleece underneath is what gives this toy its strength. The fleece core holds the body of the toy together when playing games like Tug.

UP TO FOUR ROWS OF STITCHING

All material seams have multiple rows of stitching, are covered with a layer of soft, flexible material and sewn together with more rows of stitching, creating a soft and durable toy with no hard edges!

UP TO TWO LAYERS OF MATERIAL

Outside layer is made of a tight-woven sherpa-style fleece – the result is good flexibility with high durability. Inside material is made of tight-woven brushed fleece of the heaviest weight and highest durability.
