

TUFFY®

HOW ARE THEY MADE?

7

SEVEN ROWS OF STITCHING

Tuffy® toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the materials edge, and the toys' parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

4

FOUR LAYERS OF MATERIAL

Tuffy® toys can have up to 4 layers of material depending on the shape, size and style of the toy. Our Ultimate series (depicted here) can have up to 2 layers of Luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

Disclaimer: Each toy shape and size is made differently, and because the toys are made by skilled human hands, no two toys are identical.

PROTECTIVE WEBBING

For our Ultimate series we add an additional layer of webbing, whenever possible, around the outside edge to cover the seams of the toy. This is sewn multiple times, for added durability.

SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.

WORLD'S "TUFFEST" SOFT DOG TOY™

TUFFY® MEGA™ TOYS

TIGER TESTED - DOG APPROVED!

By far the "TUFF"est toy around. The Mega Tuffy is our strongest, most durable toy... Tiger tested and dog approved! Excellent for a game of fetch or multi-dog tug-o-war, these toys keep even the biggest dogs happy!

SEVEN ROWS OF STITCHING

Tuffy® MEGA toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the materials edge, and the toys' parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

SEVEN LAYERS OF MATERIAL

Tuffy® MEGA toys can have up to 7 layers of material depending on the shape, size and style of the toy. Our MEGA series (depicted here) can have up to 3 layers of Luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

SQUEAKER SAFETY POCKETS

Each Squeeaker is safe and quiet because they are sewn into a safety pocket beneath four other layers of material.

DURAFORCE[®]

DURABLE WOVEN FIBER! SQUEAKS, FLOATS AND WASHABLE!

SUPER TOUGH WOVEN MESH MAT

The 1st layer (Outer) is made from plastic coated polyester fibers that are woven into a thick mat for durability. The outer layer is equally as thick as many multi-layered durable toys. The 2nd layer (Inner) is polyester to make the toy even more durable. Both layers are cross-stitched together.

DURABLE WEBBING

Each edge of the DURAFORCE[®] toy is covered with industrial grade webbing to protect the edges and create strength. The toy is then sewn again to ensure the toy stays together in the toughest interactive play.

SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.

MIGHTY®

Mighty® Dog Toys *rethink durability* and approach it from a new angle.

Durability is created for each toy with multiple layers of flexible materials that move with the dog's teeth instead of tearing. Compared to other toys, Mighty® dog toys have no hard edges. The result is that these toys do not promote chewing—great when you're trying to discourage chewing habits.

These toys may seem plush on the outside, but all the durability features are internal making these toys soft, yet MIGHTY® strong.

DURABLE SEAMS

All seams are located inside the toy to discourage chewing. Vulnerable seams are protected by sewing a flexible material over the edge of the seam.

UP TO

4 ROWS OF STITCHING

All material seams have multiple rows of stitching, are covered with a layer of soft, flexible material and sewn together with more rows of stitching, creating a soft and durable toy with no hard edges!

UP TO

2 LAYERS OF MATERIAL

Outside layer is made of a tight-woven sherpa-style fleece – the result is good flexibility with high durability. Inside material is made of tight-woven brushed fleece of the heaviest weight and highest durability.
