ALL TOYS ARE NOT CREATED EQUAL

...that is why we created the **TUFFSCALE™** and the **DURASCALE™**. The **TUFFSCALE™** and the **DURASCALE™** are designed to give you insight on how TUFF the toy you're buying compares against another. Some dogs are aggressive and can only have the TUFFest toys ranked 8 and above. Other dogs may not be as aggressive or may be older and behave better with their toys. If this sounds like your dog, you can consider toys ranked 5 and above.

OUR GOAL:

Our goal is to help you purchase a toy suited for your dog's needs. All of our Tuffy®, Mighty® and DuraForce® toys are made with the same durable construction, but the shape of the toy can impact a dog's ability to penetrate the toy over time.

Use the **TUFFSCALE™**, or the **DURASCALE™** to help you with your purchase. If you aren't 100% sure which toy is right for your dog, call us at 1-866-4-DogToy.

We strive to make our toys the TUFFest on the market. We are continually testing and creating new toys to be both stronger and safer for your dog. As loving dog owners we only want the best toys for our dogs and yours. Indestructible is impossible... *But we will keep trying!*

 Look for our **TUFFSCALE™** or **DURASCALE™** logos while you shop to identify the most appropriate toy for your dog.

TUFFY®

HOW ARE THEY MADE?

7

SEVEN ROWS OF STITCHING

Tuffy® toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the material's edge, and the toy's parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

4

FOUR LAYERS OF MATERIAL

Tuffy® toys can have up to 4 layers of material depending on the shape, size and style of the toy. Our Ultimate series (depicted here) can have up to 2 layers of Luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

Disclaimer: Each toy shape and size is made differently, and because the toys are made by skilled human hands, no two toys are identical.

PROTECTIVE WEBBING

For our Ultimate series we add an additional layer of webbing, whenever possible, around the outside edge to cover the seams of the toy. This is sewn multiple times, for added durability.

SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.

DURAFORCE

DURABLE WOVEN FIBER! SQUEAKS, FLOATS AND WASHABLE!

SUPER TOUGH WOVEN MESH MAT

The 1st layer (Outer) is made from plastic coated polyester fibers that are woven into a thick mat for durability. The outer layer is equally as thick as many multi-layered durable toys. The 2nd layer (Inner) is polyester to make the toy even more durable. Both layers are cross-stitched together.

DURABLE WEBBING

Each edge of the DURAFORCE® toy is covered with industrial grade webbing to protect the edges and create strength. The toy is then sewn again to ensure the toy stays together in the toughest interactive play.

SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.

MIGHTY®

Mighty® Dog Toys *rethink durability* and approach it from a new angle.

Durability is created for each toy with multiple layers of flexible materials that move with the dog's teeth instead of tearing. Compared to other toys, Mighty® dog toys have no hard edges. The result is that these toys do not promote chewing—great when you're trying to discourage chewing habits.

These toys may seem plush on the outside, but all the durability features are internal making these toys soft, yet MIGHTY® strong.

DURABLE SEAMS

All seams are located inside the toy to discourage chewing. Vulnerable seams are protected by sewing a flexible material over the edge of the seam.

UP TO
4 ROWS OF
STITCHING

All material seams have multiple rows of stitching, are covered with a layer of soft, flexible material and sewn together with more rows of stitching, creating a soft and durable toy with no hard edges!

UP TO
2 LAYERS OF
MATERIAL

Outside layer is made of a tight-woven sherpa-style fleece – the result is good flexibility with high durability. Inside material is made of tight-woven brushed fleece of the heaviest weight and highest durability.

2 LAYERS OF MATERIAL

Each toy has up to two layers of material. One layer of heavy fleece and one layer of durable, luggage-grade material underneath. These two layers are what gives the toy its strength.

HIGH DURABILITY AND QUALITY

Each toy incorporates quality materials that provide the highest level of durability.

2 TOYS IN 1

There is no white stuffing because the inside of the toy is a plastic core in the same shape as the toy. If your dog removes the outer fleece covering, there's a whole new toy inside!

MULTIPLE ROWS OF STITCHING

Two rows of cross-stitching hold the two outer layers of the toy together, and when possible the inside seams are sewn up two more times.

MIGHTY® NO STUFF!

Mighty® No Stuff Rings contain **NO** white poly stuffing!

The core of each ring is tough and durable, so if your dog does get to the core it's just like having a whole new toy to play with! These toys may seem plush on the outside, but all the durability features are internal making them soft, yet MIGHTY® strong.
