WASHABLE

WORLD'S TUFFEST SOFT DOG TOY

CARE INSTRUCTIONS

Wash your pet toy by spot cleaning soiled areas.
Toys are also machine washable, but do not machine dry.

REMOVE LOOSE THREADS

Over time this toy will start to show wear. As your pet plays with the toy your pet will begin to wear down the different layers of the toy. Remove loose threads to avoid ingestion. If your pet reaches the white stuffed core of the toy discard immediately.

THERE IS NO SUCH THING AS INDESTRUCTIBLE!

Our pet toys are designed to be the "World's Most Durable Soft Dog Toys" and are "Built to Last", but keep in mind no toy will last forever. This toy is designed as a "play" toy and is not a "bone". The toy should not be ingested. Toys are meant for you and your pet to enjoy together, do not allow your pet to play with this toy unsupervised.

WORLD'S TUFFEST SOFT DOG TOY™

7

SEVEN ROWS OF STITCHING

Tuffy® toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the materials edge, and the toys' parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

4

FOUR LAYERS OF MATERIAL

Tuffy® toys can have up to 4 layers of material depending on the shape size and style of the toy. Our Ultimate series (depicted here) can have up to 2 layers of Luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

PROTECTIVE WEBBING

For our Ultimate series we add an additional layer of webbing, whenever possible, around the outside edge to cover the seams of the toy. This is sewn multiple times, for added durability.

SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.
