Dog Toys

DURABLE SEAMS

All seams are located inside the toy to discourage chewing. Vulnerable seams are protected by sewing a flexible material over the edge of the seam.

MULTIPLE ROWS OF STITCHING

Vulnerable areas are covered and sewn with a material binding that covers the original sewn edge. This extra binding creates multiple rows of stitching to hold the seams together.

2 LAYERS OF MATERIAL

Each toy has a plush outer material with a layer of heavy fleece under-neath. The fleece underneath is what gives this toy its strength. The fleece core holds the body of the toy together when playing games like Tug.

HIGH DURABILITY AND QUALITY

Each toy incorporates quality materials that provide the highest level of durability.
