WORLD'S TUFFEST SOFT DOG TOY™

# ALL TOYS ARE NOT CREATED EQUAL

...that is why we created the **TUFFSCALE™**. The **TUFFSCALE™** is designed to give you insight into how TUFF the toy you're buying compares with another. Some dogs are aggressive and can only have the TUFFest toys ranked 8 and above. Other dogs may be less aggressive or older and behave better with their toys. If this sounds like your dog, you can consider toys ranked 5 and above.

## OUR GOAL:

Our goal is to help you purchase a toy suited for your dog's needs. All of our Tuffy®, Mighty® and DuraForce® toys are made with the same durable construction, but the shape of the toy can impact a dog's ability to penetrate the toy over time.

Use the **TUFFSCALE™** to help you with your purchase. If you aren't 100% sure which toy is right for your dog, call us at 1-866-4-DogToy.

We strive to make our toys the TUFFest on the market. We are continually testing and creating new toys to be both stronger and safer for your dog. As loving dog owners, we only want the best toys for our dogs and yours. Indestructible is impossible... *But we will keep trying!*

**Look for our TUFFSCALE™ logo while you shop to identify the most appropriate toy for your dog.**

# TUFFY®

## THE ORIGINAL CONSTRUCTION

### MULTIPLE ROWS OF STITCHING

Tuffy® toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the material's edge, and the toy's parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

### MULTIPLE LAYERS OF MATERIAL

Tuffy® toys can have up to 4 layers of material depending on the shape, size and style of the toy. Our Ultimate series (depicted here) can have up to 2 layers of luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

### PROTECTIVE WEBBING

For our Ultimate series we add an additional layer of webbing, whenever possible, around the outside edge to cover the seams of the toy. This is sewn multiple times, for added durability.

### SQUEAKER SAFETY POCKETS

When possible, squeakers are sewn inside protective pouches as an added layer of safety.

WORLD'S TUFFEST SOFT DOG TOY™

# TUFFY® MEGA CONSTRUCTION

## TIGER TESTED - DOG APPROVED!

By far the "TUFF"est toy around. The **Tuffy® MEGA™** is our strongest, most durable toy ... tiger tested and dog approved! Excellent for a game of fetch or multi-dog tug-o-war, these toys keep even the biggest dogs happy!

### MULTIPLE ROWS OF STITCHING

Tuffy® toys can have up to 7 rows of stitching. The number of rows of stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold the multiple layers together. Rows of stitching hold webbing around the material's edge, and the toy's parts are sewn together with up to 3 rows of stitching. When possible, a protective webbing is added around the outer edge and sewn up to 3 more times.

### MULTIPLE LAYERS OF MATERIAL

Tuffy® MEGA toys can have up to 7 layers of material depending on the shape, size and style of the toy. Our MEGA series (depicted here) can have up to 3 layers of luggage grade material. Certain layers of material are coated with a layer of plastic to hold the material fibers together. Finally, we use soft fleece for the outside layer.

### PROTECTIVE WEBBING

For our MEGA series we add an additional layer of webbing, whenever possible, around the outside edge to cover the seams of the toy. This is sewn multiple times, for added durability.

### SQUEAKER SAFETY POCKETS

When possible, squeakers are sewn inside protective pouches as an added layer of safety.

# TUFFY® DURAFORCE® CONSTRUCTION

## DURABLE WOVEN FIBER! SQUEAKS, FLOATS AND WASHABLE!

### SUPER TOUGH WOVEN MESH MAT

The 1st layer (outer) is made from plastic coated polyester fibers that are woven into a thick mat for durability. The outer layer is equally as thick as many multi-layered durable toys. The 2nd layer (inner) is polyester to make the toy even more durable. Both layers are cross-stitched together.

### DURABLE WEBBING

Each edge of the DURAFORCE® toy is covered with industrial grade webbing to protect the edges and create strength. The toy is then sewn again to ensure the toy stays together in the toughest interactive play.

### SQUEAKER SAFETY POCKETS

Squeakers are sewn into material pockets inside the toy. This additional layer of safety can give you the time you need to safely remove the toy in the event your dog reaches the core of the toy.

## SUPER TOUGH TOY!

# TUFFY® MIGHTY® CONSTRUCTION

## Mighty® Dog Toys **rethink durability** and approach it from a new angle.

Durability is created for each toy with multiple layers of flexible materials that move with the dog's teeth instead of tearing. Compared to other toys, Mighty® dog toys have no hard edges. The result is that these toys do not promote chewing—great when you're trying to discourage chewing habits. These toys may seem plush on the outside, but all the durability features are internal making these toys soft, yet MIGHTY® strong.

### MULTIPLE ROWS OF STITCHING

*Tuffy® Mighty® toys have multiple rows of stitching. The number of rows and stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold multiple layers of material together.*

### MULTIPLE LAYERS OF MATERIAL

*Tuffy® Mighty® toys have 2 layers of material. We add an internal layer of luggage grade material for added strength when playing games like tug. Then, a second layer with a soft fleece.*

### DURABLE SEAMS

*All seams are located inside of the toy to discourage chewing. Whenever possible, a layer of webbing is added to the vulnerable seams to reinforce and make them stronger.*

### HIGH DURABILITY AND QUALITY

*Each toy incorporates quality materials that provide the highest level of durability.*

# TUFFY® MIGHTY® CONSTRUCTION

## NO STUFF

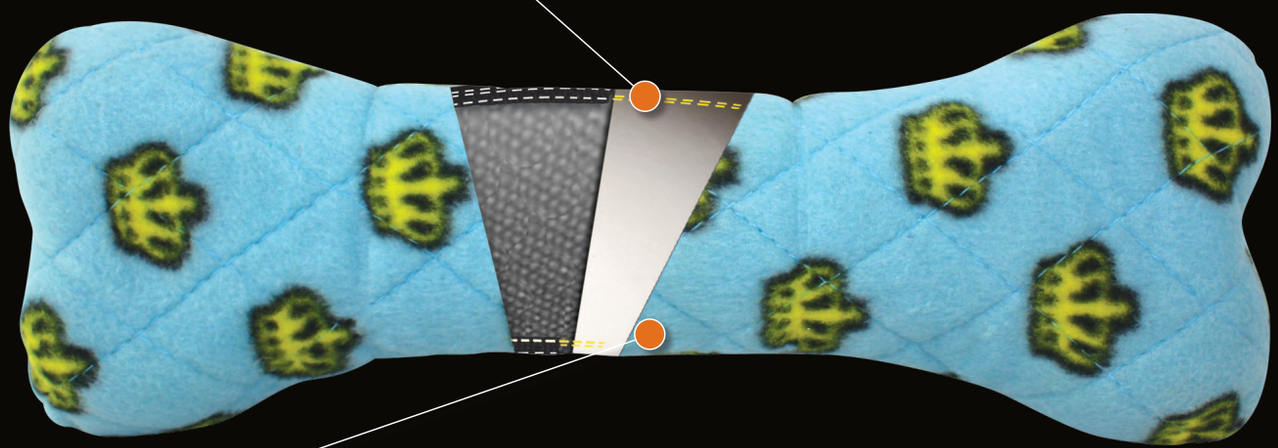

TUFFY® MIGHTY® CONSTRUCTION

## MULTIPLE ROWS OF STITCHING

*Tuffy® Mighty® No Stuff toys have multiple rows of stitching. The number of rows and stitching depends on the shape, size and style of the toy. Two directions of cross stitching hold multiple layers of material together.*

## HIGH DURABILITY AND QUALITY

*Each toy incorporates quality materials that provide the highest level of durability.*

## MULTIPLE LAYERS OF MATERIAL

*Tuffy® Mighty® No Stuff toys have 3 layers of material. Each toy starts with a hollow plastic squeaking core in the shape of the toy. We then add a layer of luggage grade material and a third layer of soft fleece on the outside. Multiple layers create durability.*

**NO WHITE STUFFING!**

## 2 TOYS IN 1

*Instead of stuffing, we created a plastic squeaking core in the shape of the toy. If your dog removes the outer layers, they still have a whole new toy to play with!*

2026-VIP-Catalog_111326.indd 84 11/13/26 4:08 PM

# TUFFY® MIGHTY® CONSTRUCTION

## NO STUFF

10 TUFFSCALE

### Mighty® No Stuff Rings and Bones contain **NO** white poly stuffing!

The core of each ring is tough and durable, so if your dog does get to the core, it's just like having a whole new toy to play with! These toys may seem plush on the outside, but all the durability features are internal making them soft, yet MIGHTY® strong.
